

Technical BAGS*

* for protecting and
transporting equipment

HALFAR
TECHNICAL BAGS

* from inside out

Customised* DEVELOPMENT

None of HALFAR®'s products are 'off the peg'. Each bag is a unique piece, developed in close cooperation with you **for your device** or **your specific deployment requirements**. From the first sketch to the completion of the production process, we provide precise planning, the highest-quality materials and cutting-edge manufacturing technologies. Our goal is always the same: to create a solution that delivers impressive functionality and design and makes your deployments safer and more efficient.

Technical textile bags and systems.

Unique^{*} SOLUTIONS

The bags and backpacks that we develop for you are more than just packaging. They protect your equipment while keeping it organised and making it easier to handle.

They create clarity, improve your operational readiness, protect sensitive devices and ensure the highest levels of safety. ***from the first sketch to the finished product:***

Our expertise allows us to realise almost any textile solution tailored to your needs.

Top quality for the military, police and emergency services.

* ... to the ready-to-use product

Everything FROM A SINGLE SOURCE

THE PATH TO YOUR *tailor-made* PRODUCT

Developing your product is a goal-orientated process for us.
The focus is always on your requirements and wishes.
Our dedicated development team has considerable expertise in terms of materials, technical feasibility and production optimisation.

1. Consulting & concept

Together we clarify all questions, take measurements and develop a concept for your individual technical bag.

- ▶ What are your specific requirements?
- ▶ Deadlines, quantities, budget?
- ▶ What content and devices need to be protected and transported?

2. Sampling & testing

We create a first dummy, test it extensively and make a prototype that we agree with you.

- ▶ Complete product design
- ▶ Testing of materials and cuts
- ▶ Production of a prototype in Bielefeld, Germany

3. Production & delivery

Once you have approved your bag, production begins and delivery is scheduled to arrive on time.

- ▶ Production starts in Europe or Asia
- ▶ Release sample provided before series production
- ▶ On-time delivery

WE *think** BAGS

With over 30 years of experience, we see ourselves as ***problem-solvers, generators of ideas*** and true ***partners*** to our customers. Relevant ISO certifications provide evidence of our quality standards.

We are aware of the specific industry requirements and standards and they are already taken into account during development. Flexibility, a love of innovation and a service-oriented mindset are the hallmarks of our approach.

We can tackle any challenge, no matter how complex your needs.

- ▶ Tailor-made B2B solutions since 1986
- ▶ Customised product development and sample production in Bielefeld, Germany
- ▶ Manufactured in Eastern Europe and Asia
- ▶ Small batch production also available
